INCREASE SALES AT YOUR STORE

LINQ shelf edge displays give grocery stores a new edge above their competition. Improve sales by delivering your digital messages at the specific moment when customers are deciding whether to purchase.

- **Facilitate decision making for higher evaluation products** with 360-degree view and product comparisons
- **Increase sales of private label brands** by accentuating savings
- **Accelerate purchase decisions of high price tag products** by highlighting key product features
- **Drive impulse purchases of high velocity products** by increasing visibility

THE DISPLAYS ARE IDEAL FOR:

- In-aisle gondolas or freestanding shelves
- Dedicated fixtures
- Hero end-cap displays
